

SSP100 – 10 – How Computers See
Instructor: Michael Eckmann
Skidmore College
Fall 2026

Here is some information about the class discussion we will have on Tuesday, September 15 during class.

Please bring your copy of "Who Is Government?" with you to class on Tuesday. A few questions I may pose during the class to spark discussion are listed below. Feel free to think about how you would answer some of these before coming to class on Tuesday.

- Why do you think "Who is Government?" was chosen by the First Year Experience committee for the summer reading?
- Did any one particular essay affect you in some way? Which one, how, and was it the person being profiled and their life or work they did, or was it for some other reason?
- Which of the authors writing styles were most engaging to you?
- Did any of the essays relate to your areas of interest? Which ones and how?
- Did reading the book cause you to think about the ways in which you, yourself approach tasks/work/study in different ways? In other words, did any of the essays or the book in general inspire you? In what ways?

In addition, you will also have the opportunity to share your thoughts about anything related to the book and your reading of it. I just wanted to give you some "food for thought" before our class discussion.
